Through the reports issued by the Audit Bureau of Circulations, this publication, along with other publisher members of ABC, voluntarily and regularly give the buyers of advertising more verified factual information than is available for any other advertising media at any time.

Meet Mr. ABC — he works for you

This man is a circulation auditor. His job? Keeping us on our publishing toes.

As a representative of the Audit Bureau of Circulations, this specially trained auditor visits our office annually to make an exacting inspection of our circulation records. He has access to all of our books and records in obtaining the FACTS about our circulation.

His independent analyses, published by ABC in an Audit Report, provide us with an accurate measure of your interest in this publication. To keep you as a reader year after year, we must provide a publication worth your money issue after issue.

The degree with which we hold your interest, as verified in the ABC report, is measured by the number of copies sold each issue, where they are sold, and how they are sold. Obviously, if you aren't interested you aren't going to buy.

This same information is of interest to our advertisers, too. The rate they pay for the advertising space they use is based on our paid circulation.

Thus, the ABC report is a guide for us in providing you with a publication which merits your support and a guide to our advertisers that they get what they pay for—your interest as readers.

"America's" Partnership with the Laity

AMERICA is staffed by a group of Jesuit priests. However, the work of AMERICA could never be done without the constant collaboration of the laity. We editors gratefully acknowledge our heavy debt to the men and women who have shared with us their counsel and their specialized talents.

Our closest friends, of course, are the AMERICA Associates, the complete roster of whose names appeared in our Fiftieth Anniversary issue (pp. 200-202). Seen here in the AMERICA editorial board room is a group of the Associates who spent an evening in discussion with us recently at Campion House. Spread out on the board room table are several of the engraver's proofs of documents and photographs used in our Fiftieth Anniversary number. Visible in the foreground is a copy of the first issue of AMERICA, dated April 17, 1909. On the wall to the right hang photographs of the original editorial and business staff of our Review.
